

BIOSOLV HD SPECIAL

DISSOLVES - REMOVES - RELEASES - LUBRICATES - RENEWS - PROTECTS LONG

Multifunction product based on innovative bio-solvents, recommended to be used in a wide range of industrial and professional applications, because of its excellent features. Characterized by a deep wetting power and detergent, low volatility, it makes easier and safer any cleaning operations. Suitable in any case in which the operator is subject to prolonged and continuous exposure over time.

HIGHLY BIODEGRADABLE NON TOXIC NON FLAMMABLE SAFE EFFICIENT

EXAMPLES OF APPLICATION FIELDS:

- GRINDING WORKSHOPS
- MACHINING TOOLS
- CAR/TRUCK/MOTORBIKES SERVICE GARAGES
- INDUSTRY OF IRON AND STEEL MACHINING
- THERMO HYDRAULIC SERVICE
- COMPETITION, 2T engines, go kart and motorbikes

CHARACTERISTICS

DISSOLVES

Effectively dissolves rust and graphite

REMOVES

Easily removes greases and oils even if carbonized

RELEASES

It permits to release old oxidized bolts, nuts, tools, pliers, scissors. Excellent alternative to the aerosol looseners, just wet the part to be released, wait some minutes the product's action, then try to move/loosen.

ANTI-SEIZE LUBRICANT

Ideal to lubricate with anti-seize effect any mechanical coupling, hinges, guides, screws, etc.

RENEWES

Renewes any part of engines which is encrusted, effectively dissolving carbonized oils and greases. Ideal as a pre-treatment of parts to be cleaned in wash machines/basins with biologic detergent; ideal for cleaning blocked injectors.

PROTECTS LONG

Protects steel and cast iron machined parts from oxidation, rust and corrosion. Prevents dispersion electric currents. Long lasting thanks of its slow volatility.

It can be used as pre-treatment product, helping to dissolve incrustations, with parts washing machines/basins even using biologic detergent.

CLEANING RESULTS

INTAKE MANIFOLD, BEFORE CLEANING

AFTER CLEANING WITH BIOSOLV HD

PROTECTION RESULTS

ON MILD STEEL

The picture shows a mild steel tube, after one week from application of BIOSOLV HD, exposed to the weather conditions and continuous raining:

SURFACE

- Easily removes/melts acryl paints, plastics like ABS and PVC. PEHD is safe.
- In case of following painting of the parts after degreasing, we recommend to use BIOSOLV HD 6/1, which provides a weaker protection layer, easier to remove.

IT RESPECTS...

ENVIRONMENT

BIOSOLV HD Special is highly biodegradable and water insoluble: it quickly separates from the rinse water, floating on the top together with waste oils and greases. In this way it will be easy to collect by waste water treatment plants.

USER

BIOSOLV HD Special, unlike common use's solvents, is not toxic, nor causes cancer. The only recommendation is to use protection gloves and goggles to protect eyes and hands from irritation.

HANDLING

BIOSOLV HD Special is not flammable and is ready for use (no further dilution needed).
